-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Information Disclosure Statement

The listing of references in the specification is not a proper information disclosure statement. 37 CFR 1.98(b) requires a list of all patents, publications, or other information submitted for consideration by the Office, and MPEP § 609.04(a) states, "the list may not be incorporated into the specification but must be submitted in a separate paper." Therefore, unless the references have been cited by the examiner on form PTO-892, they have not been considered.

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claim 1 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. The phrase on lines 2-3 of claim 1, "having a first segment and a second segment comprising and the first segment further comprising" is unclear. For the purposes of examination, the Examiner assumes the Applicant intended to recite --having a first segment and a second segment; the first segment further comprising--.

Appropriate correction is required.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-3 are rejected under 35 U.S.C. 102(b) as being anticipated by Haibel, Jr. et al. (US Pat. No. 6254623).

With regard to claim 1, Haibel Jr. discloses an ultrasonic surgical instrument having an ultrasonic blade comprised of two segments, with the cross sectional area of one segment being larger than that of the second [see col. 2, lines 56-61].

With regard to claim 2, Haibel Jr. discloses an ultrasonic instrument comprising a housing [100], a sheath [36] joined to the housing and an ultrasonic waveguide [96] positioned within the sheath with a distally located end effector [98] [see col. 4, lines 49-54]. The waveguide comprises a first cross-sectional area greater than a second cross sectional area [see col. 5, lines 13-31].

With regard to claim 3, Haibel Jr. discloses a clamp arm [42] pivotably mounted on the distal end of the sheath [see col. 5, lines 55-56].

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
